Short editorial from the editors of The Independent Voice

First we would like to apologize to the readers of Highlander, Saxon and the Independent Voice for the recent changes that have taken place over the last few months. The changes we believe have been for the better of the movement. By now most people will have heard of the **UNITY** that has taken place, it has been decided by we the editors to join forces with the existing editorial staff of Blood & Honour. We believe with our contribution Blood & Honour can only get better (**Together we are strong**). Thanks to everyone who has contributed to our previous mags and made them possible. 88 /14

Blood and Honour supporters/Racial comrades,

Firstly cheers for buying this, No.15 of Blood & Honour, we hope you enjoy what you see and its worth the money you have spent on it. No.14 passed off and yet again broke the sales of No.13, which until then had been a record print. Lets hope this edition proves better also, its upto you - yes you, buy in bulk, sell to your division, details elsewhere.

A hellava lot has happened since No.14, firstly and very importantly, Blood & Honour held its first ever 'National Meeting' inviting band members, gig organisers, fanzine editors and divisional leaders. The meeting held in the Midlands attracted members from 8 different bands (where were the rest ?) who all had input in what turned out to be a very positive move for all and sundry involved, it was decided that 'The Independent Voice' would merge with Blood & Honour magazine and help make the content larger and more varied, which I hope you will notice, this shows NS/Nationalist Unity in action, we are not just talking about it, we are doing it. Several other matters very important to the running of the B & H movement were discussed, argued over and agreed on, obviously most of it cannot be printed for security reasons but on the whole, after a good 3-4 hours of discussion the foundations have been laid for B & Hs survival into the next Century. It was great to see many old faces, many of whom had been at loggerheads at one time but now acting in a adult, constructive manner, the meetings on this level will be few and far between but at least once a year to iron out any hic-ups that may arise. Next time however, I'd like to see more represented from bands, we are here to have a say, so be a part of it.

Blood & Honour also was represented in Hungary recently during a day that saw many hundreds of Nationalist/NS march in honour of the Hungarian troops that fought alongside the Waffen SS in Ww2 who are being constantly denounced for their bravery, at the highly charged rally after the march, your very own B&H columnist Harley made a strong speech in support of all in attendance and put his neck out for no doubt alot of media attention. The same night Midlanders and general rabble rousers Avalon played a concert in support also (more on this gig and rally elsewhere).

A week later a B&H activist also broke new ground by attending a Serbian B&H event, the first Brit to turn out for a crazy Serb B&H gig, he was very well catered for and more interactive journeys are planned.

One thing I have heard lately is people having a moan at someone if they haven't attended gigs, don't forget a gig is a meeting place, with like minded comrades, **IT IS NOT A POLITICAL ACTIVITY**. Political activity takes part on the streets, the general population of this land will only be won over by street activity, not gigs, keep this in mind eh ??.

Well that about rounds off the rantings for this edition, we welcome the lads and lasses from Independent Voice and may we flourish. For Blood & Honour.....The Editor.

COPRIFUOCO

Coprifuoco are a fairly new Italian Blood & Honour band who have good links with us here at B&H towers as J.C. the bands drummer was once drummer of Chingford Attack and also drummed for Warlord on many occasions. We asked JC about his new band.....

Could you tell us about your formation etc ?

The band formed a couple of years ago in the city of Verona, in the region called Veneto (the land of the mighty VFS - Veneto Fronte Skins). After a few line up problems we have been gigged and practising steadily with this line up : Pacio - Vocals, Pizza - Guitar, Enzo - Guitar, Michel - Bass and JC - Drums.

How is the scene in your area ?

We've got a pretty good scene here in Verona because we all stand together, plus we have another great old Italian band in this city - Gesta Bellica, plus support from the footie hools, and generally its a great atmosphere amongst our folk.

What is your view on B&H ?

We all support B&H and consider ourselves part of it, even if people try to destroy it, lie and spread scandal about it, or even leave, their will always be someone carrying it on, it will never die, in Europe and across the world, it will always be our voice.

Tell us about your gigs, where you played with what other bands etc ?

Saying we are a new band, we have played quite a few concerts especially here in Italy and three times in Germany (a big salute to Carsten, Manuela, Ian and all our other friends there). Some bands we have gigged with are : Warlord, Gesta Bellica, Senfheads, LSG, Max Resist and lots more.

You have released a demo, tell us about it J.C. and when do you plan a CD ?

Yes we recorded a demo which sold 4-5 hundred copies but its sold out now. We preferred doing a demo first rather than a CD to get people familiar with our name, style and songs, but as we speak we haven't played any gigs as we are busy learning new material to record our first CD.

You play Oi rather than metal that seems so popular nowadays, why do you choose Oi ?

We are playing Oi, we are skinheads and Oi is our music, plain and simple, our influences

are Oi and Punk even, we don't care if bands are technically better than us and want to play another style, all varieties are good and the movement needs this, but Oi is Coprifuocos style, we also like Patriotic ballads otherwise lack of variety would be ~~F*****~~ boring.

You played in a couple of bands now and you also have Michel on Bass who also played in Peggior Amico, has this helped your bands progression ?

Sure it has helped, our experience and contacts have proved very valuable and influential on our songs.

Please state what NS/Nationalist parties are active in Italy and what level of support do they receive from Italian Nationalists ?

We've got a few political parties, like MSI and some of us are working with them, but only helping them, not so much members of the party, we mean if they need support we help them, and in return if we need their help they help us. Here in Italy the opposition to us is strong as Lefties are in government and with all what happened here during and after WW2 and in the '70s they do all what they can to stop us and put us down.

Tell us about your songs JC and why they are important to you ?

Our songs are really basic as which is what we want, we get straight to the point, even though sometimes we have had to be cautious of arrest as once we played a open air event in the centre of Verona, in the street, so more politically correct songs were relevant. We cover subjects of life like most bands, friends, racial struggle, streetfights etc.

Any closing comments ?

Cheers to B&H for the interview and a big salute to our friends in England and all of Europe.
Hail BLOOD & HONOUR.

Cheers to JC for the interview even though it took two attempts as the mail is repeatedly stolen. We wish you luck with the band. To contact Coprifuoco write to : MBE.161-Via Governolo, 8 -46100 Mantova, Italy or E-Mail them at : unione-sk@iol.it

British Hammerskin is Murdered in Ulster

Sad news this month as one of our brothers from the Ulster (Harvey) was killed/Murdered. Blood & Honour sends its condolences to Harvey's family & friends.

Paul Harbinson [Harvey] R.I.P. Brother. 18.10.67-21.10.98.

Harvey was the first member of the British Hammerskins in Ulster and also the first member to get the Hammers tattoo, and was a dedicated skinhead from about nine years of age. We have all known Harvey for a long time, another member, Clarky had been knocking about with him from 1982 when they were members of the National Front in Belfast.

Harvey, was also one of the more prominent members, later moving to organise a unit in Rathcoole. During that time he started a National Front backed skinhead band named Disorderly Behaviour, they played for a few years before splitting. He later formed another band named Valhalla [around 1986] who played together for about 18 months.

Harvey regularly travelled to gigs on the mainland and helped organise gigs in Ulster. To anyone who knew him they would tell you he was the funniest person you could meet. But on the serious side, he was the most dedicated person to our cause that you could come across.

Harvey will be most sadly missed in Ulster and by everyone on the mainland and to anyone else who had the pleasure of meeting him. He was a skinhead in the true sense, and upheld the skinhead way of life right to the very end.

The circumstances surrounding Harvey's death/murder remain unclear at the present time, but when we get a clearer picture, we shall inform everyone

Tribute from Clarky. British Hammerskin

Harvey was the best mate anyone could've had, always having a laugh and joking around, he really was good fun to be with. He was a dedicated skinhead for most of his life from the early age of nine. To realise he is no longer with us is hard to come to terms with to say the least, but knowing the cruel way he was murdered makes it harder still. But I have been honoured to have shared his company longer than most others, and have all those good memories to reflect upon. Harvey is a great loss to his family, his true mates, friends, the skinhead world and the movement. Rest in peace brother.

Clarky.

*A wee tribute by Jock. British Hammerskin.
With Harvey gone it's Ulster's Loss.....*

Not only do the Hammerskins lose a brother but Ulster has lost a son.

I first met Harvey in the early ninety's not because we were Skinheads, because we shared the same belief in Keeping Ulster British! I would say we first met up on one of the many demonstrations/band parades, with me being a Skinhead from the mainland & supporting Ulster, we hit it off straight away. We had many great times after that. Those memories will be treasured for ever.

Harvey can rest in peace as he knows we will carry the fight on for the things he believed in, the 14 Words and to Keep Ulster British.

Too many tributes to mention.

Tributes poured in from all over the world following the death of Harvey. From all the British bands, Blood & Honour and his British friends. Hammerskins from Europe/World who had never met him sent there condolences.

HARBINSON, PAUL (HARVEY)

Deeply regretted by your friends in the main land from Celtic Warrior, English Rose, Whitelaw, British Hammerskins and the Blood and Honour Movement. See you in Valhalla.

HARBINSON, PAUL (HARVEY)

Deeply regretted by Sandra, Kelly and family. Our deepest sympathy to Jessie, Hazel and the entire family circle. At Peace.

HARBINSON, PAUL (HARVEY)

Deeply regretted by Clarky. Never again to hear you laugh or see your smiling face. You were one in a million Harvey. No one will take your place. Sleep well my brother.

VINLAND WARRIORS

Vinland Warriors are a relatively new band on the scene. They come from Canada and recently played at the White Christmas Gig in Britain. Blood & Honour tracked them down and conducted this short interview with them before they flew off to play in Berlin.

How long have the band been together and who are the members?

The band formed in the summer of '96. The original line-up was Steve – Drums, Mike – Bass, Rene – Vocals and Raymond – Guitar. The band have undergone a few changes and the current line-up is Maggoo – Drums, Raymond – Guitar, Rene – Vocals and Yannick – Bass.

How many gigs have you played?

We have played about 15 gigs, so far, once in England, four times in Germany, once in the U.S.A, once in Ontario and about 8 times in our local area. We have played with Aryan, Brutal Attack, The People Haters, Max Resist, Involved Patriots, Bulldog Breed, Avalon, Legion Of St. George, White Law, Excessive Force, Archivum, Corona Ferrea etc.....

Your debut CD "Free your spirit" has just been released by Panzerfaust Records. What can you tell us about this?

Our CD was released on December 1st '98, but it was actually recorded last year. Panzerfaust have been a great encouragement to us. We did have a problem with the artwork (not due to Griffin), but the CD is finally out and we hope that people will like it.

How would you describe your music?

We would describe our sound as traditional W.P. Skinhead music, but why not listen to our CD and give us your own opinion.

Which bands have influenced you?

Bound For Glory, Squadron, The Cross, Stormfront, Aryan, Skrewdriver, Skullhead, Brutal Attack and most other W.P. bands.

You recently played in Britain. How did you find it?

Britain is absolutely brilliant! The Unity within the scene is excellent. Now that the problem people have gone, I think that it will send a breath of Fresh Air throughout the world. Please work to keep the Unity strong. With Unity we can win this war, but divided we're fuckin' weak.

What's been happening in Canada?

Involved Patriot have a new CD out and so does Stonehammer (ex-Aryan). Other than that, not a lot is going on!

What are your future plans?

We'd like to record our second CD, play more gigs, and return to Europe and play Scandinavia.

Any last comments?

Thanks to Brad and Sid (BHS) and to Big Gary (LOSG) for the hospitality and for all their help. 88 – Keep the faith!

VINLAND WARRIORS – FREE YOUR SPIRIT – (Panzerfaust)

This is the debut CD by Vinland Warriors and it's a very good introduction to the band. The cover art is courtesy of Griffin, and is his usual high standard. This CD is well packaged and well produced. The simple, but effective riffs are well complimented by Rene's powerful vocals. It's hard to compare this band, but they are a cross between Aryan, The Voice and Legion 88. Three of the 12 tracks are sung in the band's native tongue (French), which is where the Legion 88 comparison comes in. My favourite tracks are "Vinland Warriors" and "Free your Spirit" which is written for Mike Amann, a 17 year old W.P. skin who was killed in a streetfight back in '96. There are good cover versions of "Free My Land" and "Go Back" by Stormfront. "Woodstock" is about a Canadian W.P. festival (Aryan, Max Resist, Hatemongers, Vinland Warriors, Excessive Force and Involved Patriots) and has nothing to do with the 60's hippy festival! This is a very good debut CD, with lots of enthusiasm coming through. If you like the traditional W.P. sound then this is for you.

The Harley Column

The column of the mad National Socialist Biker

Government minister sanctions genocide.

Corruption and double standards in public life are nothing new. I won't mention the peoples party (Labour) top brass who send their children to public schools, I will not even mention the former Welsh Office Minister Ron Davies who resigned after a 'Liason' on Clapham Common that resulted in his car being stolen. Speculation as to what he was doing on the common with a total stranger, a known haunt of Homosexual deviant perverts, would I am sure result in the reader of this drawing the correct conclusion.

Geoffrey Robinson M.P Labour millionaire and apparent friend of Queer Peter Mandelson M.P recently was exposed as having bought his said poof friend a real plush pad in fashionable Notting Hill. Mandelson could never have afforded to have paid back the money supposedly lent and so if it was a gift then for what was it given? So much for squeaky clean Labour. Both buffoons have resigned as Ministers.

On the heels of the afore-mentioned debacle, we then had a Tory Euro-M.P. and almost extinct species anyway, who has been caught smuggling Cocaine, Cannabis, and degenerate Queer pornography from his sojourns on the continent.

Worse still was his wife and family going in front of the cameras and declaring that they knew that he was a degenerate Queer Pervert and were quite happy with his depraved conduct. The probability of an A.I.D.S injection being brought home for the same family was not discussed.

The Cabinet Minister for the Environment Michael Meacher M.P has given his backing to plans to wipe out the Ruddy Duck. A species imported from America, a mis-guided act by Sir Peter Scott, a genuine good hearted conservationist.

Unfortunately the Ruddy Duck has started migrating across the continent. These feathered fornicators have been inseminating the native European White-Headed Duck and the Hybrid (Cross Breed) is fast eclipsing the native stock.

In steps the concerned wildlife experts who have now received Government sanction for an imminent slaughter of the offending Ruddy Duck populace. Will it be in time to save the European White Headed Duck from extinction? Learn the lesson.

The almost "carry on" style performances surrounding Glen Hoddle, the former England Football team coach begs this question, is it now the official policy that no Hindu or Buddhist can have this or any job in the public spotlight? Both these faiths have ingrained beliefs concerning reincarnation.

I personally consider that all religions are mere superstition. Whether we speak of the witch doctors of darkest Africa passed or Europe in the age of fiefdom, our emergence from industrial revolution has not shook off the perveyors of pastoral parody.

I remember being taught parables from the Christian Bible. Stories of incredible events like walking on water, resurrection and virgin birth and the rest.

It is a shame that the media ebullience for exposing corrupt and obscene politicians is not matched by equal zeal for exposing the World Zionist Conspiracy and New World Order. WHY IS THAT ??

Defend British soil

Gibraltar this beacon of defiance is once again under siege by Spanish government bully boys. Life is being made intollerable by tin-pot type border guards harassing movements to and from this British colony. Legally ours since the Treaty of Utrecht of 1713 ceded it to us after a bitter peninsular war. Strange then that the Spanish think that they should have it because of their colonial past leaving them in the same situation elsewhere.

The reader may be in the position of thinking that the continent of Africa had long returned to

rule by its Arab and African inhabitants. Not so in Spanish Colonial North Africa. Two Gibraltar type beacons shine from the Moroccan coast at Melilla and Ceuta, Spanish possessions since 1497 and 1580 respectively. Spain persistently refuses to hand these colonies over to Morocco and so I think Spain should now SHUT UP about Gibraltar.

Furthermore, the beleaguered battlements of our brave Gibraltar fortress people are the subject of yet another on going unfair deed. They are the only dis-enfranchised European Union voters in a membership of knocking 250 Million, I'm not sure what any vote would do in the democratic dictatorship that we now are domiciled, but have it the 30,000 residents of Gibraltar must.

Hungarians remember the Waffen SS

On 13th Feb. '99 in Budapest, Hungary the third annual Waffen SS memorial march and commemoration was held this day for the freedom fighters who fought and sorrowfully mainly died in the face of advancing Bolshevik hordes. At the end of the last great brothers war, this central area of the old historic fortress city here, was scene of some of the most vicious and desperate hand to hand combat.

Once again the event attracted 'immense media' scrutiny. I for one had a TV camera stuck up my nose for most of the proceedings. The participants began gathering in Clark Adam Square, this being by Adam Clarks acclaimed and pioneering Danube River Bridge.

It was clear the night previous that the authorities are totally embarrassed by this event as in Berlin up to two hundred comrades had been kidnapped by the Police, for the weekend after attempting to leave the city for the Hungary trip. Plenty of us did though make it here and as the column formed up, banners and flags were unfurled and of course checked to see if they bore forbidden symbols. It is worth noting that all the Swastika and all Nazi regalia is outlawed for public display. The Celtic Cross though and also the victory salute are still legal in public at present.

The Union Flag of our motherland made a debut appearance here as did a contingent of Blood & Honour Great Britain supporters.

The event organiser chose now to ask for an Englishman to present himself at the marches conclusion to make a speech from the platform to the assembled mass of National Socialists. I cannot remember if I volunteered for the task or was detailed to do it.

The long column of mainly silent participants moved along as I quietly contemplated that here marched the National Resistance. "Hier marschiet der nationaler widerstand", after assembling for the wreath laying, speeches were made by various nations representatives, the one in English by myself was indeed the first time behind a microphone and the content tempered in view of media and riot police provocateurs present. The speech was this, "We are gathered here today to remember the fallen heroes of past conflict. Brothers wars that should not have taken place. May we hope that never again such slaughter happens.

The so called democratic Europe that we now live in makes life very difficult for patriotic people to speak, but one day may we hope for final victory. We must keep the flame of freedom burning. NO SURRENDER".

The massive news coverage day after day afterwards distorted much, but no distortion was possible of the military precision of the Hungarian National Front Honour Guard. A superbly disciplined force of truly inspiring Aryan resistance.

Political parties in Hungary have to forfill certain criteria in order to be registered, none of our ilk have so far complied with these ZOG rules however the Hungarian National Front exists as an umbrella organisation for Blood & Honour Hungary, the National Socialist Network and Hungaria Skins, together as one.

The evening after the days events for the many NS folk gathered in Budapest was to be spent at the Viking Club. Indeed many hundreds gathered here, there was no chance of getting to the bar as capacity and more, good natured and spirited comrades were packed into the venue for an expected marathon line up.

Before long though the large wooden doors to the club were being pounded upon for ingress. The doors flew open and in burst a ragged gaggle of Police trouble makers, waving batons and pushing people aside. These fifteen forced there way to the stage, stopped the band and announced that the gig was off. They had supposedly barged in to check peoples identification documents but soon spotted forbidden aryan symbols on display in this private function. The Police hooligans were attempting to kidnap a German

comrade for wearing a forbidden symbol when the crowd spontaneously reacted. It is for those present to know of what happened next, except to say that the perpetrators of this Police thuggery did not get away totally with it.

Police panic was obvious. Media cameras in the surrounding streets showed complete and abject vacillation of authority as uniformed Police literally ran amok with little or no idea of how to contain a possible serious public order situation perpetrated by them as an excuse to clamp down hard on Nazi Skinheads with new laws soon. I know that if we were gypsies, the authorities would not have dared to unleash such wanton violence.

After several hours of Police violence masking the obvious Police confusion and panic, the gig went ahead. Beforehand though all films and cameras were exposed so no record of the sickening Police thuggery could be proven with pictures of inside the Viking Club. Unfortunately many comrades had been arrested or dispersed and missed Britons Avalon, first up after the melee. The band was joined on stage by Tesa of Serbian B&H band 'Razors 88'. Powerful renditions of Skrewdriver anthems complimented the Avalon set.

The next band to play is for few to know, as balaclavas hid their identity but not their indomitable spirit. Providenje from Serbia, final for the event and a blinding set followed. Bajba and the band only decided to play at the last moment after a unbelievable incident when a small contingent whose nationality I shall not mention, actually caused upset by abusing our Serbian comrades with pro Ustashi rhetoric. The culprits were rightly ejected by the organisers.

Despite the down side to the weekend, many old and new friendships were cemented. What our enemies need to understand is that our determination to carry on the struggle is only increased by vilification and harassment. May the foe one day reap the whirlwind.

Finally many sincere regards to comrades in attendance especially the Hungarians whose grasp of the English language saved us from isolation. Very special thanks for Zoli, Kaloz and Balazs.

May we not forget the comrades arrested at random after the Police riot, those indiscriminately beaten and spare a thought for those who languished in goal on trumped up charges but are now gladly free again.

Harleys forces into Europes wild south.

Due to dire actions threatened by ZOGs NATO forces upon this proud under besieged nation, I had a on guard awareness that an English voice upon the crowded trams, buses, streets and in the bars would be met with suspicion and vitriol. Infact not at all. Sanctions against this nation for years now have made the economic situation here a most desperate struggle for survival. For example my hosts mother is a doctor in Belgrade, an heart lung and chest specialist and she earns 250 DM a month, that is £90 a month. Young people have no chance of work, destined to spend years at home with parents, dependent upon them. Amputees wait at traffic lights, hopping around and begging for sustenance. Aryan people like you and me are living in a world so different from ours. We still have problems in England but on Europes bridge head they have more.

The cradle and birth place of the Serb nation is a region called Kosovo, sovereign territory that is on the precipice of a calamity. Our indigenous Serb brothers have in recent years been completely outnumbered by rampant child bearing of the immigrant Albanian populace.

The ancient bridge head of our Europe is in real peril of being lost. Muslim terrorists portrayed in the ZOG media as a guerilla force (K.L.A) are being encouraged and aided by our government and others. So called NATO forces are poised to act as no different than an airborne Islamic bombing and murder squad. No idol threat as they did the same to the Bosnian Serbs. Troops and armour are ready in Macedonia awaiting the order to help the Albanian terrorists. NATO is truly a disgrace, guilty of treason against European people. It has to also be said that there are a small number of Kosovo Albanian ethnics that have no quarrel with Serbia but are increasingly the victims themselves of terror attacks by Muslim terror squads.

Please Serbia defend yourselves, at all costs may your air defences have more effect upon the aggressors than has Iraqs. Perhaps the Belgrade hierarchy can bomb London if our feeble government doesn't hand over loyal Ulster to Fenian racketeers ?

The organised voices of NS vigour in the country are B&H, PO BOX 139, 35000 Jagodina, Serbia, YU. The Serbian front zine is an independent journal run by NS ideologists. Thinkers of high moral calibre the address is "Srpski Front" Gavril Principa, 11/7, 35000 Jagodina, Serbia. The zine comes out every three months.

There is also a large group of Nationalists that seem to be based around the Work F.C Belgrade.

All these groups look to England very much for inspiration. It is a great pity that division here over recent years has them perplexed. We all know who the real enemy are and so its about time attention was solely focused on them. Unity in England has happened, many bands supported by National Front, BNP, IM and Hammerskin members salute with one voice you Balkan brothers in the months ahead.

Stand firm in Kosovo I say if not Montenegro will be next on the ZOG hitlist. It was stressed to me in Serbia that all groups believe in an end to Ustashi and Chetnik attitudes. The former is an extremely polarised Croat Nationalist fervour. The later is an extremely pro-Serb and Anti everybody else feeling. Both ideals need to find common ground as the real enemy is carving up the Balkans.

My synopsis of conversations in Serbia with comrades is that the Croat and Serb people have almost one and the same language, furthermore the basis of division for both nations appears to be guess why? The church, Croats are Catholic, and Serbia are Orthodox. There has been centuries of bitter conflict and frankly there is no end in sight.

The night of Saturday the 20th Feb came at the near end of a busy schedule for Englands B&H rep here in the wild south. Stalwarts within this proud nation had decided that now was the time to organise a pan-aryan gig. Urbanisation not too distant from Beograd (Belgrade) the Serb capital was the venue.

The Union Flag formed the stage back drop and after initial unfortunate internal problems concerning possible violence from a large rival skinhead faction the gig finally went ahead to the dynamic sound of 'Razors 88' one of the divisions five bands, the others being 'Providence' 'Sorab 18' 'Krystalnanoc' 'Agressive'. Tesa, the energetic vocalist had last weekend given Avalon a boost in Budapest

was here now with his own band.

Next band on were Belgrades 'Radical Patriots'. The very young band members made up very amply for lack of physical stature by obvious sound thinking. Esponsored here by a crescendo of youthful patriotic vigour. My very high opinion of Sale, Aca, Dule, Dion, Rile, and Maja and others in this nations nerve centre was reinforced whole heartedly this week.

The gig ended after 'Archivum' had played a set. Now banned from performing in there native land and under threat of long gaol sentences if they disobey ZOG thought crime laws. Here in this place the personable band members looked very laid back on stage, so much so that the guitarist Yoli sat down. If anybody reading this has even half a chance of seeing Hungarys greatest then give Archivum your undivided attention.

At attention you will be when hearing there rousing anthem 'S.H' as can be heard on a recent Hungarian NS compilation. Cheers to everyone I met on the night and throughout my stay here. Well worth the visit.

The emblems and photo that I enclose are of the Serbian National emblem, the two headed eagle, the shield is emblazoned with four S symbols which mean this 'Samo slogo srbina spasava' 'only unity saves Serbs'. The photo is of Radovan Karadzic. Bosnian Serb political leader and now wanted by Western governments as a war criminal he is definately the one known Serb leader who has universal national respect from all Serb patriots. Hail Karadzic. Bollox to ZOG western governments who are actually the real war criminals.

AVALON

By now you should know Avalon, they have gigged as much as people will let them (which hasn't been enough lately) and have been busy supporting various projects and organisations in the back ground, over the past two years especially in the short space of time of the bands CD releases Avalon have gained a sizeable support amongst the B&H scene the world over, we asked Graham the bands charismatic singer the following questions.....

Its been over a year since Avalon last appeared in B&H and alot has happened, what have you been upto ?

Since our last appearance in B&H we've been pretty busy, we've had two CDs released and have been lucky enough to have been asked to play abroad a couple of times. Our first CD 'Our Honour is true' was released on Di-Al Recs in Jan '98 and was pretty well received. Our 2nd CD 'This is war' was released on Movement Records a few months later and seems to have gone down quite well.

Since our last interview with you we have played in Germany twice, Belgium and have just returned from a mad weekend playing in Hungary. We have also played up and down England playing whenever asked and have also been involved in playing a few benefit concerts for various political parties.

You also have a new line up in the band, why did the others leave and is this line up the best so far ?

Yes, the line up has changed again but this really is the last time. The line up now is Myself (Graham) - Vocals & Guitar, Aky/Bass and Mark/Drums. We are also helped out on second guitar by Steve of Conquest but we are still looking for something a little more permanent. To me, this is the best and most powerful line up that we have had and once we have got it together as a band I think people will see and hear a difference.

Have you been writing much new material and can you tell us about it ?

Loads of new stuff written which is putting previous Avalon material to shame. We are having problems finding time to rehearse it all but we've probably got about 16 new songs written, new titles include : 'Die you must' 'Puppets, fools and traitors' 'Close to death' 'Always proud' 'We are here' and 'The answer is in the question'.

You mention 'This is War' is on Movement Recs of Germany, how were you treated by them ?

Movement Recs treated us very, very well. They sent us more royalties than we wanted and I had to ask them to stop sending them to us.

They do actually care about the merchandise that they put out and also care about the people. We have no problems with them and are very keen to work with them again.

When will you work on the new Avalon CD and what will it be called etc ?

Work will start on our new and third CD as soon as we have made a deal and the money is available for the studio. We have still not secured a deal but we are in no hurry to start recording, we want to get this 100% right. We are not too concerned about titles but 'The answer is in the question' is lyrically the best song that we have written and seems to stand out for some reason.

A shot of Avalon in mid-performance

It is said that the new CD will be on the newly bought out USA label 'Resistance' - is this true?

No, we shall not be releasing a full length CD on USAs Resistance label, but however we have spoke to them and met infact but we will only say we may do some small project in the future.

How do you view the gigs now that both 'sides' so to speak have come as one ?

Strange. After a longtime of bad feeling but realising that nearly all of it was bullshit and lies, to come as one is great.

How do you view B&H Magazine in all this Unity?

We have always supported both the B&H Mag and in particular the present editor and team, this remains 100%. The mag has improved on an already very good format and with the new 'togetherness' we hope it will continue, However, we keep hearing about a readers wives page but never seem to see anything of it.

How is the Coventry/Warks scene ?

We are still trying to recover from a destructive individual but we are back up and running and our memories are still strong for the

above mentioned, we know the score and it aint even half time yet.

We have now reconstructed our division with the reigns being handed to a person who is 100% Blood & Honour we are 100% behind him and will support anything he comes up with.

One bit of bad news though is the demise of 'Strength and Will' magazine. S&W was set up to perform as a platform for Unity which has now happened. We would not say that S&W was instrumental in Unity but it did play an important role in that it got people from both sides writing in and many problems were overcome. At the end of the day the mag had run its course and the quality and the quantity was sliding fairly quickly so it was best to quit while ahead. Any folk who feels that they are due sub refunds should write to S&W at PO BOX 1014, Coventry, West Midlands. Recently any cheques or POs that have been sent in have not been cashed and will be returned shortly.

Avalon appeared on the BNP benefit CD 'Our Europe..Not theirs', how has the CD helped the BNP and do you agree with its policies ?

We were led to believe that profits from the mentioned CD would be put towards their Euro Election Fund. We have no reason to question any of this and wish them the best with what we consider a very good CD.

We do support most of the BNP policies as we do with the NF but we are also aware of the dangers that nationalism can present. We do enjoy close links with certain BNP quarters but we are NOT a nationalist band.

But do you still believe B&H and BNP/NF etc should be kept separate but still us giving them a helping hand when needed ?

If 100% unity is our goal in Great Britain then we all need to learn to tolerate and work with each other. We would be most offended if the BNP or NF tried to get involved with the running

of B&H and would expect them to feel the same if B&H stuck its oar into their river. It really is a question of re-learning for all of us and tolerance really is the key word.

So this time next year, where will Avalon be?

Time can be funny. Somethings move forward, some backwards but very few things stay the same. We are looking to get the next CD recorded to the best of our abilities and perhaps get the band around Europe a bit more. It looks as if it is going to be hard to get a gig in England for a while because of the sheer number of bands so we will carry on rehearsing and drinking.

Any last remarks for us Graham?

Cheers for taking the time and interest in Avalon, its always a pleasure talking and working with you John. To those who continue to snipe away behind each others backs remember: "Its not always those who shout the loudest that gets the most work done".

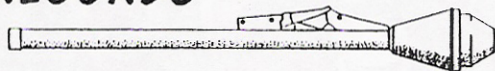

HAIL BLOOD & HONOUR.

•Avalon- THIS IS WAR

Cheers to Graham for the great interview and the many beers we sank sorting it out. Keep up the fantastic work in Coventry and look forward to seeing you soon. Keep up your support for B&H it is highly appreciated.

PANZERFAUST Records

Panzerfaust Records is a Minnesota (USA) based music label which specialises in the production and distribution of radical pro-white rock music. During the fratricidal conflict of the Second World War, National Socialist Germany developed a portable, hand held anti-tank weapon which was used against enemy armour encroaching on the fatherland. It was suitably dubbed 'panzerfaust' which in German means 'armoured fist'. Effective only up to 100 metres, it took a tremendous amount of courage to confront the enemy with the single-shot rocket launcher. Success was possible, but not guaranteed. Rooted in Aryan ingenuity, the Panzerfaust served as the archetype for future anti-armour weapons in the post war years.

Panzerfaust was chosen for the record labels name because the spirit of the weapon and those who employed it are forever embodied in our racial psyche. Stubborn tenacity in the face of overwhelming odds was displayed by those who wielded the original panzerfaust. In the present era, this same attitude is required by the 'lone wolf' political activist who must operate in this hostile environment. The experienced staff at Panzerfaust Records is committed to doing its best in providing the audio ordinance thats needed by our comrades on the front lines of todays racial struggle.

Releases by Panzerfaust so far are...

Involved Patriot - The Right Way,
Stonehammer - Sons of our race,
Vinland Warriors - Free your spirit,
and they have distribution of the great CD 'Guess who's coming to dinner' (see reviews), coming soon from Panzerfaust is the new Hatemonger CD 'Spread the hate' and also the new 'Bully Boys' fist full length CD. \$16 will buy you each CD and available from PO BOX 188, Newport, MN 55055, USA, mention B&H if writing. A wider range of CDs and t-shirts is also available.

Eric Pleasants

BRITISH FREIKORPS

1911-26.7.98

A former professional boxer, wrestler and strongman and one of the first people to bring Judo to Norwich died on Sunday 26th July '98 at the age of 85. Eric Pleasants was born in Saxlingham and was 15 when he discovered his unusual strength and resolution could make him money. A professional boxer for three years he then switched to wrestling. By 1936 he was good enough to be selected as a reserve at the Berlin Olympics and later began teaching physical development and martial arts. He was also a physical trainer for members of the royal family.

He joined the Norwich branch of the British Union of Fascists and provided security for officials and meetings. At the outbreak of war, and by then a member of the Peace Pledge Union, a right wing organisation opposed to the war with Germany, he went to the Channel Islands. He then volunteered to serve in the **BRITISH FREIKORPS OF the Waffen SS.**

Serving as the physical training director for the BFC, while stationed at the SS Pionierkaseme/SS Engineer School in the Northern Suburbs of Dresden with the other British Volunteers, Pleasants began to represent the unit in boxing matches with other SS/Polizei units. He then had the distinction of becoming the 'middleweight boxing champion' of the SS. He continued to engage in exhibition matches until the last months of the war. Pleasants married a German woman and witnessed the fire bombings of Dresden from the outskirts of the city, all available personal were then used to help survivors trapped in the debris, the BFC detachment was then caught in the second wave of Allied Bombers which resulted in the deaths of two of Pleasants BFC comrades.

Pleasants, with other BFC troopers was assigned, to the SS Armoured Reconnaissance Detachment 11, of the 11th SS-Freiwilligen Panzer Grenadier Division "Nordland" under the command of veteran Swedish Ostuf. Hans-Gösta Pehrsson, known as the "Swedish Company", since most of the

Swedish Volunteers in the Nordland Div. were concentrated there, along with many other Scandinavian soldiers. Where the BFC saw armed combat on the Eastern Front, distinguishing themselves at Schoeneberg. On 14th April 1945, SS Nordland was ordered to go to the defence of Berlin. Some of the British Volunteers were retained in Steinhöfel but Pleasants returned to the BFC mother unit headquarters, also in Berlin.

Pleasants fought in Berlin until capture on May 2nd '45. He was a member of the BFC combat group led by Captain Dornfield which fought from the badly damaged gothic church of Saint George on Monbijou Square. After the unit destroyed a Russian T34 tank the church was then completely demolished by the Soviets. After a firefight, the trooper responsible for destroying the tank, Reginald Leslie Cornford with a Panzerfaust, was tracked down and shot (due to his unusual BFC uniform his soldbuch/identity book was taken and kept by a Russian Officer).

Evading the advancing Russians, Pleasants escaped Berlin through the underground railway system, where hand to hand fighting became particularly ferocious and inhuman after the current had been switched off. Combatants felt each others uniforms in the dark to distinguish friend or foe before engaging in duels to the death. Here he killed two Russian soldiers. The Russians then employed searchlights to clear the underground network. By this time Pleasants had descended to the next level of subterranean channels, the

sewage tunnels, from here with some SS Personnel and former party officials he made his break to the west.

ABOVE: Eric Pleasants in BFC uniform.

Pleasants managed to escape to the American lines by posing as a Wehrmacht soldier. As the witch-hunt for British SS Volunteers began he remained in Germany. He later would consider the American occupation troops to be far more brutal in their treatment of civilians than either the Russians or Germans. When the Russians assumed control of the American Zone in Central Germany, Pleasants stayed on working as a "Strongman/Entertainer", while helping 18 people to escape into the Western militarised zones.

In 1947 he was arrested by the Russians for spying, after uncovering his membership of the Waffen SS, he was sentenced to 25 years in a Soviet Labour Camp, followed by 5 years banishment in the Soviet Union. He served his time in Vorkuta (North Arctic Circle) with other SS veterans. Seven years later he and another man were released in a British-Soviet swap, which lent a lot of credence to Soviet claims that he was a spy. He arrived back in England to a newsreel reception at his mother's home at Rackenheath. For the next 30 years, Mr. Pleasants was a leading martial arts tutor in Norwich and Wymondham and practiced the wood carving he had learnt in Siberia.

He qualified in physiotherapy and massage and in the 1980s led self defence classes for the retired to give them more confidence. His career was featured in a BBC documentary entitled "Man of Iron", which also showed how he fought back from a massive stroke which left him virtually paralysed. He could not walk or speak and had to re-learn the most basic skills. But within 6

months he had taught himself to stand, and speech therapy allowed him to talk again. Also available is the book "I killed to live"(1957) which is an "as told to" autobiography of Eric Pleasants. Mr. Pleasants leaves a widow, Pauline.

Eric Pleasants fought the Communist threat before, during, and after the war. His actions should inspire us all. One day when the current victors justice and view on history is smashed, this man will truly be hailed a hero and a legend. There was no dishonour in Eric Pleasants, only the determination of a true son of St. George to help defend Europe against Bolshevism.

'You were loyal and true, may we be the same'

We apologise for the quality of the pictures but getting rare photos of BFC comrades we have to make do with what we can.

BLOOD & HONOUR BOOK REVIEW BY Bermondsey Dave.

The Beast Reawakens. Martin A. Lee Warner Books.

"The chilling story of the rise of the neo-nazi movement".

The Beast Reawakens is a comprehensive, chilling history of the neo-nazi movement, from its beginnings in post-war Germany to its influence throughout contemporary Europe and America. Drawing on more than one hundred interviews and three hundred government documents, Martin Lee shows how a well organised underground network has kept the memories of the third reich alive throughout the Cold War, charts the growth of American groups such as the Revisionist Liberty Lobby, and explains how, since the fall of the Berlin wall, Fascism/Nationalism has begun making headlines again on both sides of the Atlantic. Essential reading for all NS to understand the groundwork which was laid in 1945/46 onwards, for our rebirth. Charting the growth of nationalism all around Europe, reminds us that we are not alone, and we are NOT going to lose.

HATEMONGER

Hatemonger known to many, not at all to others are a USA band and were the natural progression from the band 'The People Haters', but with more serious songs, they have been good allies to the British B&H movement and so 'The spirit of John Amery' caught up with Mark the singer of Hatemonger to see whats going on with them.....

Could you give us the deal on Hatemonger - Mark ?

The deal with Hatemonger is, we had loads of tunes and songs that were too serioius for the People Haters, and we wanted to try something a little different than P.H type music.

After a sneak preview of your forthcoming new CD 'Spread the hate' on new U.S label 'Panzerfaust', people are raving about it ?

We are pleased with the cd and the label, the best people and a great set up, we hope it will help promote B&H in the USA as our loyalties have always been to B&H and always will be.

Does Hatemonger mean the end of the People Haters then, have you gone liberal or will the sinister sound return ?

The People Haters will soon be back with a bang, more mayhem is planned, so watch this space.

Have you played many gigs, who with, where, etc ?

Actually there aren't many gigs happening out here lately, we've played a couple of gigs in Canada and a few surprise appearances at gigs but thats about it.

Is it true that you were sacked as a printer because of sniffing the fumes ? Is this why your lyrics are so mad ?

No more fumes for this guy, I recently got a new job, and all I have to do is walk outside my front door to be mad or to go mad, just lokk around.

In Europe most bands play a Oi style, whereas in the states its more metal, whats your leanings ?

I would say more Rock N Roll, some may say we've gone metal, but to me our new sound is just pure hard white rock.

Have you any merchandise available ?

Panzerfaust will soon be stocking our CD and T-shirts, check out the web site or write for a catalogue. Details of Panzerfaust is in the news section.

What does the band think of the disgraceful Clinton and Lewinsky affair ?

I think if I lied in Federal Court I would be in jail right now.

Whats new in the states ?

The launch of Panzerfaust is good for the scene, for too long now a steady dependable label has been needed badly and in Panzerfaust we have this, also new material by bands like Angry Ayrans is brilliant and new material from the Bully Boys and a project band from Canada will be out soon.

Any closing comments to the Blood & Honour readers ?

AS ONE THEY CAN NEVER STOP US.

Cheers to Mark of 'Hatemonger' for the blunt but good interview, Mark incidentally would like some photos of when he played here a couple of years ago as 'The People Haters' in West London, if you can help, drop us a line here at B&H, cheers.

Look out for the new Hatemonger out very soon called 'Spread the Hate'.

BLUE EYED DEVILS

Blue Eyed Devils are a no nonsense band from the states, they have two full length CDs out and its high time B&H found out more about them...

Could you tell us where the band hail from and its line up ?

We are all from the 'tri state' area of the East Coast, USA. Current line up is : Drew/Vocals, Rob/Guitar, Scott/Bass and Ryan/Drums.

As mentioned you have 2 full length CDs, how have they been received by white rock listeners ?

It seems that our CDs are fairly popular in European countries such as Germany and Sweden and they do pretty well here in the states.

The band sing very bluntly about todays problems, and how to solve them, has this bluntness brought you any problems with the media, reds etc ?

There have been problems with the race laws outside the USA but nothing amounting to jail time etc. There is still a limited amount of 'free speech' left in the states. As for the Police, f*ck them. They will always be on our backs about

something. There aren't many reds in the states, our problems are with Zion, immigrants, white trash and of course the government, which amount to all of these.

Britain heads down a bad road but it seems the states is worse, what is the solution ?

I think the solution is obvious, I don't think that the majority of people will vote for a NS sympathetic politician. We are not represented in any aspect of government. And as far as I know, there are no NS supporters with enough financial or political power to influence affairs on a national or international scale. Solutions will come from a complete breakdown of society and a fight for dominance and control afterwards, things will get far worse before it gets better, realistically, one day we will see bloodshed.

Lately how often have you gigged etc. ?

Lately we haven't been playing live due to other commitments (work, school etc.), we plan on playing more live gigs in 1999.

Could you tell us about your European trips etc??

We've played in Germany, Hungary and Sweden. Some bands we played alongside are : Freikorps, Storm, Aryan, Konkwista 88, Nimrod, Archivum, Proissenheads and others. My favourite was when we played in a barn in Sweden despite repeated attempts by the Police to infiltrate the gig. There was a real showing of unity amongst NS skins and physical opposition to the government.

Were you well received at these gigs ? are you coming back ?

I believe we were well received, but sometimes playing live and touring can be tough, especially if you drink too much before you play, which I did on a few occasions. Bob and Drew have the 'edge' so they don't have to worry about that. I think our next trip will be better because more people have heard of us.

When can we expect CD number three ?

We've got 2 things planned right now. First, we will release a CD version of our '7 ep with bonus tracks from comps etc, remixed, remastered and all that jazz. Hopefully that will be ready by Spring 99 and also we are working on new songs for the next CD which we will hopefully be doing this summer.

Which other North American bands do you rate ?

Mudoven, Angry Ayrans, Chaos 88, Steelcap, Before God, Dying Breed, Extreme Hatred, Vinland Warriors, Hatenonger, The Brawlers and tons more that are great.

Have you any merchandise available ?

We have all our CDs and t-shirts available through Tri State Terror at PO BOX 928, Stroudsburg, PA 18360, USA, write that asshole Ryan for a catalogue

This time next year, what would you like to have achieved ?

Well on top of the two CDs more live shows, hopefully an impeached president (very unlikely) and the collapse of Zion its inner cities, its banks, its corporations and industry.

Any closing comments ?

Thank you and good night

Cheers to Drummer Ryan for the interview and time taken over it. Good luck with the band.

To all B&H readers support B.E.D as they have always supported B&H for many years.

**DEFEND FREE SPEECH

**CIVIL RIGHTS ABUSED AT NF MARCHES AND
DEMONSTRATIONS.**

On January 9th the **National Front** the only British Nationalist party actually marching on the streets of our nation held a march against 'asylum seekers' in Dover under the march title 'Put Britons First'. It was to show the people of Kent who are suffering under this mass influx of 'asylum seekers' that we have not forgotten them.

But the story begins back in London where NF members and supporters met up to gather onto coaches and mini buses, they were gathered up by Police and made to leave the meeting point and took in a Police convoy into Dover where Police stopped the convoy and instructed that if the NF wanted the march to go ahead they would have to go before a video camera and tell it their name, date of birth and address, this obviously was to get a data file on NF members and supporters, so the lads and lasses were forced to submit this details although they had not committed any crime, were attending a Police and Council approved march and were supporting a LEGAL political party, can you imagine it if the Police had made a Gay Rights march or a Anti Nazi march do this, firstly it would've been riotous and secondly the solicitors and rights groups such as Amnesty International would be going crazy and filing official complaints of invasion of privacy.

But who cares about this band of merry NF folk, well we do, we care for all Nationalists under the threat of constant bombardment from the Police, but because it was Racialists the matter is ignored.

The march however passed off well, a good showing of NF supporters proudly marched complete with Union Jacks along Dover seafront and chanted 'Put Britons First', the usual rabble that opposes the NF who we'll simply call the SQM threw bottles, pebbles off the beach and screamed obscenities but the patriots marched on unprovoked and law abiding.

The NF have promised that this march will not be the last of such marches and indeed only 2 weeks after this march spearheaded a anti-IRA demo in London, again the video camera was out and all had to announce ID, but these are strong willed lads, who have definitely lived up to the motto, **NO SURRENDER**. "Gawd blimey, did you kill my brother ? No, it must
be Chingford Attack then. Sat. 28th Nov. London.

Another outing for East Londons most Notorious sons, move over East 17, cos Chingford Attack are in Walthamstow tonight.

A small but compact stage, surrounded by Union flags was the centre piece of an old fashioned East End 'Boozer', nothing like the Queen Vic. A select crowd had come to watch that old grandfather of the Chingford skins strut his stuff. The old raven himself 'Big Mick' (pictured left). Chingford Attack took the stage, backed on guitar by the warlord Stigger and with the larger than life Legionaire Gary on Bass, with the normal Chingford drummer Animal, everyone knew their ears were in for a rare treat, if not a bit of a battering.

Chingford Attack then professionally flew through their set, more of a warm up for the CD than a real concert, but a gem nevertheless. If 'Gerry' sounds as half as good on disc as on this performance, people will buy it solely for one track, but the new track "Call yourself what you will - only the foolish are fooled" went down so well, we could see another anthem in the making.

A great night, this band really are the bollox live. A few more shows preferably out of London would be great, but we have to be thankful for small mercies these days I suppose.

GIG REVIEWS

White Christmas '12.12.98' featuring 'Legion of St. George' 'Vinland Warriors(Canada)' 'Bulldog Breed' 'Avalon' 'Whitelaw' 'Celtic Warrior' 'Archivum(Hungary)' 'Brutal Attack' 'Warlord'.

Firstly, what a bill of bands.

The dye had been cast and the West Country B&H Div. had the honour of hosting the yuletide celebration of race's continuance this year.

The line up formidable to say the least, White Power bands covering every musical spectrum and with Hungarians Archivum, the country's No.1 band present and Canadian youngsters Vinland Warriors playing there was something for everyone.

Above : Legion of St. George.

The journey to Bristol was eventful for the fact of seeing so many mini buses and coaches of skinheads making the annual pilgrimage, the hall was blinding, more than enough for the 350 comrades attending, the stage large, festive and well lit and most importantly for this festive gig the bar was long, large and very well stocked.

After the initial introductions and acquaintances we looked at all the stalls, and plenty there was, we were also amazed by the amount of different nationalities present, all of Europe was represented, then the fun began.

First up were L.S.G, no mess, no fuss just pure power anthems and played with a tempo not many can touch. We are all waiting for the bands 2nd CD but its gonna be hard to match the debut. Notable was a song called 'Bleeding Hearts' which had its first airing, with LSG warming the crowd, on with the show....

Vinland Warrior a Canadian band of youthful skins took the stage, after a nervous start the band settled down and played a good set, inter changing there own songs with old Oi faves, a smart move to get the crowd on your side, they have a CD out now on Panzerfaust Records, check

it out - well done and thank you.

Next Oi boys 'Bulldog Breed' the Squadron/English Rose venture, good old faces, good old songs and a chance of a singalong, a triffic set of anthems familiar to everyone to bring the atmosphere into jovial mood, the boys done good.

Whitelaw then appeared obviously with a lot of support from the West Country lads and the band played a cracking set, encouraged by the crowd and with more confidence than in September, they really shone. Noticeable was Bennys vocals, very strong, their first 6 track split CD is only a taster for the real thing.

Celtic Warrior on home turf virtually, with all there support in one hall just couldn't put a foot wrong, and played what we all expected. A tight well thought out set, well rehearsed and slick, not a foot wrong.

The only criticism being why all the covers ? C.W have a wealth of great material and that's what we want to hear.

Next were Avalon, the boys from the Midlands plus help from Steve from Conquest, which gave the band an even punchier sound. With two blinding CDs under their belt, an on form Avalon is hard to beat, adult orientated racist rock at its best, and they didn't let the crowd down, massive in Europe and now pretty big in Europe..well done.

Another treat but unfortunately one that was to be cut short, Archivum - Hungary's No.1 band took centre stage, due to lack of time bands had to cut short sets but the songs we were treated to were the best of the evening, they sounded absolutely brilliant, but such a shame on a short set, I hope they will return in the very near future and show us what they can really do.

With the clock beating us Warlord gracefully let Brutal Attack take up the remaining time. Unity in action. Ken and his new line up gave us his greatest hits and a dance floor packed solid. Ken really is a great showman.

A truly fantastic night of Honour and Pride, no trouble, just white people celebrating our heritage, a heinous crime to some, but something we must continue. Cheers to all in attendance and all the bands, a night to remember.

STIGGER SUPPORTS

NF

On 6th March it was time to head up country in support of the National Front (NF) who on this very day were holding a 'Day of Action' in Darlington, North East England. This included leafletting and a successful papersale of 'The Flame'.

After the 2 hours or so journey from the Midlands through many a heavy snow shower we arrived at the village where the event was to be held, we entered and already 70-80 lads were ready for Stigger to perform the very popular 'Patriotic Ballads'.

After a few pints (and a few more) Stigger took to the small area where he was going to perform and rallied the troops, he sang for nearly 2 hours solid, Skrewdriver classics such as 'Tomorrow belongs to me' aswell as Warlord classic 'Journey Home' to Pride classic 'Sleepwell my brother'. Each word of each song sang in harmony (OK maybe not so harmonic) to show our feelings.

Stigger had through his performance helped raise near on £300 for the NF and let it be known he did not take one penny for his performance, all for the good of the cause, well done stig.

The evening was well attended and organised by the North East Div. of P&H who we are thankful to, see you soon lads, Howay the Lambtons.

If you wish to support the NF write to PO BOX 274, Hemel Hempstead, Herts, HP3 9EQ, a Nationalist party making advances, and not watering down views.

GIG REPORT.
Warlord, Celtic
Warrior and
Londinium SPQR
Live in Essex
Feb. 20th '99.

On Feb 20th
the East End
Division of
Blood & Honour

Above : Celtic Warrior in action. played host to two of the UK's top bands aswell as the English debut of the London based Italians - Londinium SPQR.

We arrived at the venue at about 6.30pm and by about 7.00pm there was a crowd of over 200 national socialists from all over the British Isles aswell as a large contingent of comrades from Germany and Italy.

So, with the scene set for a great night, Cymru's finest export Celtic Warrior kicked off the nights proceedings. Unfortunately the bands lead guitarist, Lyndon couldn't play due to work commitments but it didn't stop the lads delivering a tight and powerful set of material from their five albums aswell as a top notch version of 'Let it burn', where Ken of Brutal Attack joined C.W on stage and following a moving two minutes silence for their dearly departed bassist 'Stinko', a blinding cover of 'See you in valhalla' sent the crowd wild.

Celtic Warrior are without doubt one of the hardest working bands in Britain and one of the most popular aswell. A credit to our nation for sure.

Londinium SPQR were the next band to take the stage and there was a deep sense of anticipation amongst the crowd as this was the first time that these London based Italians had played in Old Albion and no one could've been disappointed at their extremely dynamic and power packed performance. Londinium brought with them a sizeable crowd of fellow Italians who sent the already hectic dancefloor into a free for all arena where only the strongest survived. Their most popular track on the night had to have been the classic 'Europa'.

Following Londiniums set, the crowd were allowed a couple of minutes to get refreshment and to get their breath back. And then tonight's headlining band Warlord plugged in and launched into the Skrewdriver classic 'White Noise', 'Beautiful England' 'Brave Ulster' 'Old Albion' and many more but sadly because of time a new set had to be cut short and new material missed out.

The set was excellent most notably was 'get yourself tattooed' and 'White power' where Jonesy joined Warlord on stage. No trouble, no Reds, no police, P&H is strong....review by Shep.

SORAB 18

Where the battles rage, where men fight for sheer existence is where you will find 'Sorab 18'. One of the foremost bands involved in today's Serbian Blood & Honour scene, Jules (Sorab 18 singer) is a frontline fighter standing up against ZOG aggression spoke to us recently and this is what 'Sorab 18' are about.....

When, why and where did the band form?

'Sorab' formed in October '94 in Serbian Sarajevo on the frontline, 50 metres from Moslem positions in Heroic city colony Grbavica. We formed to state through White R 'n' Roll what we were up against, we are up against the world here, to state that here, there are honest NS & Nationalists fighting against Islamic fanatics and ZOG. When the war ended we left the town as after the 'Dayton Agreement' the town was handed into Moslem hands. I moved to my current city of Jagodina, which is the centre of the Serbian Skinhead Movement and was accepted immediately. In the summer of '96 under the new name 'Sorab 18', we were reformed, we approached our local B&H Division and were accepted. The current line up is myself (Jules) aged 30 on Vocals, Miki (23) - Drums, Nikola (25) on Guitar and Dusan (27) - Bass.

Above: Jules of Sorab 18 in action.

Why the name 'Sorab 18' and what is this in English?
Sorab means Serb, its a historic name dating

back more than 1500 years which was when our tribe settled in the Balkans

Jules, could you tell us about your songs?

So far we have about 15 songs, 11 are on our cassette 'Born for Victories', they cover all the topics of importance, Blood & Honour foremost, pride in our race, our land, the fall of the new world order, and less aggressive ones about beer. We also have some new songs in English which are called 'Friend or death' 'One voice' and 'When the sun rises'.

What about concerts, have you performed often?

The original 'Sorab' held 4 gigs in Serbian Sarajevo, one of these about 500 attended, mainly Serb nationalists. Since 'Sorab 18' has been going we've gigged 4 times under the B&H banner in front of attendances from 100-200 in our country.

Any plans to record a CD?

We'd love to do a CD but up until now we have had no offers. We do hope however Movement Records of Germany will keep a promise made to us to release two of our English sang tracks on a compilation. Also NS Records of Denmark should soon release a Serbian B&H compilation CD.

What political parties do the Serb N.S folk support?

None, all the political parties have no sympathies with N.S politics or skinheads, we only believe in Radovan Karadzic, a strong Serb leader opposing the whole United Nations.

How is your view on Croatian and Bosnian troops, what is your view of the continuous war?

At first the Croats attacked us in '90-'91 and the Muslims in '92 as a combined force against Serbian men. Serbs were defending there homes, possessions, religion and basically our land. When these forces failed N.A.T.O troops helped the Croats and Muslims first by land attack, soldiers, tanks

etc, and then by air assault, which was glorified the world over, then of course the U.N sanctions which are intended to cripple our economy.

The result was Serb people were driven from their homes and own lands of Krajina and Bosnia.

Now war rages in Kosovo against Albanian forces is causing mayhem again, you have to understand how deep rooted the bad feeling between the Serbs and Albanians is to see why the Serbs fight, same ways you may ask a Croat why he hates the Serbs so much ? We see a portrayal in some mags of support only going to Croatian families etc, where is the Aryan Brotherhood in this ?

BLOOD & HONOUR - SERBIA
JAGODINA

SORAB 18 RODEN ZA POBEDE

So whats your view of the U.N ? and its troops being used to stand against Serb forces ?

U.N Troops are helping Serbias enemies, they work and fight for Z.O.G, I know for one I'd rather be in my grave than be a slave.

How is the Serbian B&H Div. and which other bands belong to it ?

B&H in Serbia is growing each day, more and more are joining our call for survival, other bands are firstly our brother band 'Providence', then there's 'Kristalnacht' 'Razors 88' and 'Agressive'. We are involved in mostly everything that happens concerning NS activities or music and our band and unit can be contacted at B&H S, P.F. 139, 35000 Jagodina, Serbia - YU.

Could you tell us how the economy is, I mean, Yugoslavia was under Communist rule for so long, now communism has collapsed, how is it and what is a average wage ?

It is very hard to make a living, the U.N sanctions has made a serious difference to life here but they will never destroy us.

Communism fell but still in power were the same faces but new political parties etc, Western companies don't come here (even before we went to war) and so jobs are few and far between, most jobs are very low paid and only pays for a mere existence.

Serbia is the land of the village man, we have plenty of natural resources, and even after all the aggression we are a cheerful breed.

An average weekly wage is £10.

Away from the band, what hobbies have you got ?

I'm a Carpenter and work in a furniture factory and a football fanatic. Nikola works in the same factory as I but on the computers, he loves 'Football Manager' on the Pentium. Miki works in an Estate Agents and Dusan is a student studying Engineering, other hobbies are drinking beer and plum brandy.

A question we ask most bands about is Unity within the B&H scene, how do you view it ?

We support Unity as long as it means progress, we've suffered enough from lies, rumours and even murder, christ what would Ian Stuart had said if he'd been alive ? Dis-unity is terrible, Unity means VICTORY.

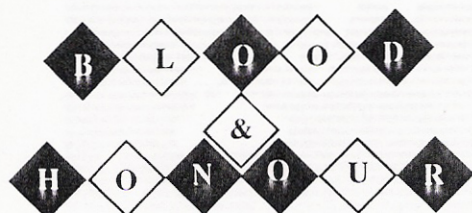

Any closing comments ?

We send our best wishes to all in B&H great Britain and its great to have one of my best wishes come true, that is to appear in the mother of all magazines. We salute B&H. Cheers to all the lads who have kept this mighty movement going, and going forward.

B&H is our way, way of unity, way of Ian Stuart. Cheers, keep up the good work - '88'. Death to ZOGs New world order.....Sorab 18.

A 12 track demo which comes with a well laid out boxed tape complete with lyric translations. A band that obviously take the British influence and they sound a mix between the 4Skins and Razors Edge, tracks to watch out for are 'ZOG will fall', 'Skinheads Saluting' and 'Blood & Honour'.

MAIL-BAG

Hail Blood & Honour,

Firstly well done on yet another excellent issue of B&H, we really seem to be getting back on track. We really enjoy Harleys Column with his no nonsense comment. "Well done that man" for pointing out the plight of Colin Jordan and his Gothic Ripples mag, remember Mr. Jordan is 75 years old and is "Blooded yet unbowed".

One thing B&H readers could do straight away, to help Mr. Jordan is purchase some stickers that Gothic Ripples have produced to alert the public about this "Thought crime". They are cheap at 30 for fl (inc P&P) and payment can be sent via clean unused 20p postage stamps from Gothic Ripples, Thorgarth, Greenhow Hill, Harrogate, HG35JQ.

We noted that Harley enjoys a good laugh reading 'Searchliar', we do too comrades, but at no time would we consider paying for Gables filth. Harley may not be aware as I'm sure other readers may not be that, you can read for free Gables hate sheet at all major cities public libraries, just ask for it at the reference section and they'll do the rest.

You may have to sign for it as you have to hand it back, but any relevant items for your area can be photocopied in the library and then handed to your relevant comrades.

We always like to use the name Gerry Gable when signing for it Ha Ha Ha.

Remember comrades, never help Searchlight by paying for it.

Yours for race and nation....Aston Villa Blood & Honour.

Dear Editor,

Please find enclosed a copy of the latest issue of 'New Target', the publication of 'The Searchlight Victims support group'.

Nationalist skinheads are probably one

of Searchlights major targets, and many of your individual members have suffered through the lies and innuendoes published by Searchlight.

As you are no doubt aware, our aims and ambitions are to destroy the nefarious and undemocratic, Searchlight organisation by first undermining and then destroying their credibility, by legal means only.

Our problem is that we have a very limited readership, and would be extremely grateful if you would be willing to provide a small advertisement, free of charge in your publication - Blood & Honour.

The Searchlight Victims Support Group exists to help you. For an information pack please send 3-1st class stamps to A.Jones, BM BOX 4534, London, WC1N3XX.

I hope that we can count on your support in our efforts to defend what little freedom we have left, against those like Searchlight who wish to totally destroy it.

A.Jones, General Secretary, S.V.S.G.

Comrade at B&H,

I've just got hold of B&H No.14 and I'm really excited, I never knew such an organisation existed. I'm 14 and I picked B&H up at the train station where it had been left on a bench. I'm so proud to be British it sometimes hurts, but now I know I'm not alone. It has really cheered me up and I'm hoping you will put me in touch with other like minded comrades in my area.

I enclose a subscription and can't wait for No.15, my best of luck to you.

Danny, Aged 14, Staines - Middlesex.

(Ed replies...Cheers for the letter Danny, its great to hear of your elation at discovering B&H, cheers for the sub and no doubt we'll meet soon. It gives us a boost to here of youngsters joining in)

BLOOD & HONOUR NEWS

WHILE WHISPERS WHILE WHISPERS WHILE WHISPERS WHILE WHISPERS WHILE WHISPERS WHILE WHISPERS

Rage & Fury interviewed in B&H 14 have released a short demo showing the bands potential, similar in ways to Condemned 84 come The Blue Eyed Devils, the band are certainly going to be popular, see them at this years St. Georges Day gig, support them.

You've heard of the same old story, oh, see that black guy, I bet his knobs big, well this is a fact that blows this common myth, into oblivion, reported in the Sun on 9th March, more than 3000 nationals got their rulers out for a poll made by condom makers Durex. The results showed that in contrast to popular myth, black men averaged 6.1" and are smaller than whites at 6.5". Hispanics and Asians make 5.9" and 5.5". Flaccid lengths ran from 1" to 6". The world average aroused willy is 6.4" inches but the length of erect privates ranges from a weeny 3 inches to a whopping 10 inches. So next time girls go for the white man, its official, they have more to offer.

Brussels - is facing a daily fine of £125,000 unless it falls into line with Euro Union requirements that immigrants from other member countries should be allowed to vote in local elections.

Germany - the city of Berlin is renovating a Nazi monument, the stadium where Hitler hosted the notorious 1936 Olympic games is to be given a £200 face lift. The '36 Olympics were conceived by the Nazis as a platform to demonstrate the superiority of the aryan race. The fate of the numerous Nazi era statuary which still decorate

the site is still under debate.

Large areas of Wapping - East London are to be re-named Summa Town, after a river in Bangladesh reports the London Evening Standard. Tower Hamlets council is to spend 3 Million renaming the area to reflect the dominant Bengali community, although it admits that the new name is not used by the Asians. The area has been called Wapping since Saxon times, when it was settled by 'Waepers People'. Two years ago the same council renamed Brick Lane as Bangla Town. Lib Dem MP Janet Ludlow who is leading the residents opposition said "Where will it end? We will have every bit of the East End named after some obscure Bangladesh religion". No doubt other parts of the capital will soon be renamed Aryan Town, and Anglo Saxon Town to reflect the white majority.

Stigger and Ken McLellan have recorded 'Pride No.2' and will have it released in the summer on German label 'Puhses Liste', apparently along the lines of the first it is destined to be popular amongst all NS/Nationalist quarters.

After B&H has achieved so much within our own ranks over the past year it seems certain 'has beens' are jealous that real white activists are getting their acts together, a rival B&H has been launched called 'Rock against white cowardism' and insults all true B&H supporters as 'all wankers together'. It goes on to preach that B&H is really 'Blood and Dishonour - the gravy train' and yet with the magazine comes adverts for posters, CDs, T-shirts etc, hypocrites or what, wake up loyal

readers, from GB and across the world, there is only one B&H, and that is us, united and forging ahead.

Austria has seen a victory for the far-right, Jörg Haider, the populist far right politician who has expressed his admiration for Hitler, and praised Waffen SS veterans for fighting for Europe, won a major victory in regional elections in the Southern State of Carinthia. Haider's 'Freedom Party' took more than 42% of the vote. It should ensure that Haider is named Governor of Carinthia, the post from which he had to resign in 1991 after praising Hitler.

The Searchlight Victims Support Group are a organisation that set to right the wrongs stated by Searchlight magazine (the Anti Nazi journal). They expose the criminals behind the Anti Nazi mag and various other left wing scum intent on ruining NS folks lives, they produce an informative magazine called Target and is available for the price of 3 - 1st class stamps from A. Jones, BM BOX 4534, London, WC1N 3XX, support them as they are fighting for your rights.

Czech B&H or more precise the Bohemia Div of B&H held a successful concert on 20th Feb with locals Buldok, Conflict 88, Vlajka and Parabellum playing with headline band being Swedes 'Totenkopf' who are busy promoting their excellent second CD 'Our symbol is death', watch out for a Bohemia Div. interview in No.16 of B&H.

Hate Monger have their second CD out anyday on new USA label Panzerfaust, entitled 'Spread the hate' it shows the band in its most powerful best, overall much better than the debut CD on Danish NS recs, buy it and support B&H USA.

Congratulations from all in West London B&H and indeed all comrades goes to Warren and Cheryl who finally tied the knot of 27th Feb, well done.

SKINFULL are a new band from Oxford and are looking for a drummer, anyone down that way fancies a go get in touch with us and we'll pass it on. Whilst talking of new bands, its said that London BNP supporters have formed a band called 'Londons Calling', whilst up in the Midlands former shock core heroes 'Violent' who split up are trying to get back together, Grit of the band wants to hear from anyone with a musical knowledge to get

in touch via us here at B&H offices.

Stylish Nazis Row - James Brown editor of mens magazine Q has resigned, publishers Conde Nast have announced. His departure follows a row between the company and Brown over a recent list of the 200 most stylish men of the 20th Century, which included the Nazis. To say they even looked good is a crime now.

Razors Edge played a New Years Eve gig in Denmark with Germans Kraftschlag and Swedes Storm, apparently at the stroke of midnight all band members opened a bottle of champagne each and showered each other like the Grand Prix winners, over 200 attended and a good time had by all. Meanwhile Razors plan a new CD shortly with Movement Records who the band firmly support, musicians for the CD will include 3 German comrades who provide the guitars for the band these days.

Poll watch - 83% of Britons think there is 'a lot' of racial prejudice in Britain. 34% think that race relations have improved over the last 5 years, but 25% think they have got worse. 3% think the Lawrence report did an excellent job, 20% a good job, 45% a poor one- said Gallup/Daily Telegraph.

Legion of St. George one of the most popular acts of the B&H scene are well on there way to recording there second CD which will be titled 'In defence of the realm', the band have over the past months been treating gig goers to several new numbers, check them out.

Richmond, Virginia, USA a black man defends a Klan member. A prominent black lawyer and civil rights activist has agreed to defend a leading member of the KKK in court. David Baugh, a former U.S district attorney has agreed to defend Barry Black, an imperial wizard of the KKK. who has been charged with a cross lighting in a public place. The offence carries a potential 5 year sentence. Baugh says "Personally, I believe this man has the right to hate me. Professionally, I know he does".

Bradford University is to stop playing the national anthem at graduation ceremonies because "Patriotism is no longer acceptable in a multi-racial society" reports the Daily Telegraph.

With great sadness we have to announce that on the 5th Dec '98 South London B&H supporter and life long NS activist Cameron passed away, given only 6 months to live in March of the same year our good friend and comrade fought the cancer

all the way never once looking for sympathy. He continued attending London socials and national concerts to the very end, his last being the Ian Stuart gig where Brutal Attack played a dedication in his honour. A very popular activist shown by a large attendance at his cremation at Lambeth Crem on the 14th Dec. A fanatical Chelsea supporter, this friend will be sorely missed, Cameron was 32, SEE YOU IN VALHALLA, REST IN PEACE.

British Ulster Alliance - was officially launched on Sat. 16th January. Over 40 invited Loyalists and Patriots attended the private meeting held in North London. Supporters of the B.U.A sent their best wishes from Ulster, Scotland and various regions throughout England. Present at the meeting was a recently released Loyalist prisoner from the Ulster Defence assoc. For further information concerning the B.U.A contact : PO BOX 397, Thornton Heath, Surrey, CR7 6JX, also available from this address is Mainlander, Englands independant Loyalist magazine dedicated to keeping Ulster British, it also reports on the BUA, for £2 inc P&P any cheques to 'G. A Dr Who 'Dalek, a tattooed Maori, a potato and Freddie Mercury have been chosen ahead of Monarchs, writers, inventors and Military heroes to mark 1000 years of British history in the Royal Mails millennium stamp collection.

Jackson, Mississippi - Klan murder case reopened: The notorious murder of three civil rights activists in '64 is to be reinvestigated in the light of new evidence that has emerged from previously classified state archives. James Chaney, a black student, Michael Schwerner and Andrew Goodman, two white civil rights workers were arrested for speeding on June 20 1964 by a deputy sheriff. When released they were shot and killed by the KKK, apparently alerted by the sheriffs office. Seven Klansmen were convicted of conspiracy, but no one charged with murder.

Ceuta - Anti Immigration Fence - the European Union is planning to erect a new £22 Million perimeter fence along Europes southern most border in an effort to stem the tide of illegal immigrants fleeing North. The fence that will be patrolled by police and fitted with video cameras will run along the entire length of Ceutas 8km border with Morocco.

Hattiesburg - Mississippi has seen a 73 year old former leader of the KKK sentenced to life imprisonment for the murder of a black civil rights activist in 1966. Vernon Dahmer was firebombed in his own home by the Klan. The prosecution

alleged his death had been ordered by the then Imperial Wizard of the Mississippi, White Knights a Mr. Samuel Bowers. Bowers had been tried for the crime on four previous occasions in the last 30 years but had been released each time because of hung juries, no doubt OJ Simpson will be hounded for 30 years.

The gig scene has been ultra busy, apart from the White Xmas and February concert as reviewed in this issue many bands have played near or far. **Celtic Warrior, Bulldog Breed and Whitelaw** played a tribute concert in Ulster for fallen comrade Harvey (see article), as always any band that makes the long journey to this loyal isle they were made welcome and the gig went excellent. The first gig of the new year saw Northants B&H stage **Avalon, English Rose and Legion of St. George** in front of over 200 people in a great venue, this gig was the big comeback gig for English Rose complete with new line up and they really clicked and played a tight fast set. **Bulldog Breed** gigged Finland where Aussie band Fortress have also been in March. The **Violent Storm Memorial Concert** this year was organised by Coventry division of B&H and went off very well with over 250 in attendance with Scots **British Standard** making a welcome comeback to the gig scene complete with new singer Barrel, they played a short but tight set and will be back again, we are promised. **English Rose, Whitelaw and Celtic Warrior** also played with Billy making the traditional minutes silence on which all the crowd raised their right hands in silence and then a tremendous 'Sieg Heil' when the minute was complete. Six years have sadly now past since mates and comrades Brian and Darren Sheeley, Paul Casey and Jason Oakes died in a horrific car crash, Billy, now singer of Celtic Warrior luckily surviving. We shall never forget them.....Celtic Warrior played there new CD 'Invader' live for the first time and went down a storm, they ended the evening with a set of Skrewdriver covers which had all dancing and singing along. No trouble, no Police but remembrance for those who fell.

March has seen **Fortress and English Rose** play to a selected audience at a concert in the small town of Shepshed.

Avalon gigged in Germany before Christmas with several other bands including the popular 'Proissenheads' to well over 800 people, they have also gigged in Hungary and plan a trip to France as this mag goes to print.

Warlord will shortly make the dramatic comeback to Germany now that certain fines have been paid by German comrades for Stigger who was arrested in '91 over the stabbing of a Left winger, in the Eastern city of Cottbus which led Ian Stuart

to record the highly acclaimed 'Justice for the Cottbus six' (CD). Well Warlord are going back, along with Legion of St. George. Stigger has also played a ballads evening for the NF in Geordie land and has played a ballads night in Germany on March 27th.

Conquest have also made a come back and gigged alongside **Bulldog Breed** in Germany. The band announced in the last edition of Blood & Honour that they had split up, apparently it was more of a breather for the band members to sort out family and business problems, so we'll be seeing them live shortly we hope, we also hear a (CD) on German label Movement Records is in the pipeline.

President Clinton and his puppet Blair retaliate to Saddam Husseins reluctance to let U.N inspection teams into military premises by blowing up thousands of Iraqi's to bits.

Saddam claims the teams contained spies, hence his reluctance. Clintons government aids now admit they had spies along with the British in the inspection teams, to plant transmitters to direct guided missiles to their targets. This means Saddam was right, and the "pre emptive" strikes were planned months ago.

Clintons heroic rhetoric says he will smash terrorism wherever it raises its ugly head, Blair the poddle with his nodding head continues nodding on cue.

Why does this statement not include the I.R.A or Isrealis, Serbian aggression brings world condemnation while the genocide of the Palestinian people is ignored. The marxist scum of the IRA continue killing Ulsters people and Skinhead Mo Mowlem lets more out of prison.

BLOOD & HONOUR GREECE is up and running and have a very active core who are also supportive of Greek NS party 'Golden Dawn', to contact them write to PO BOX 8127, 10010 Athens, Greece.

Bully Boys have recorded a new CD and is set for release any day by new USA label Panzerfaust.

Vinland Warriors who recently made a mini tour of Europe to promote their new CD, including a quick visit to GB for our White Xmas gig were arrested on arrival back into Canada, they had CDs and T-shirts confiscated and now face a trial under Canadas very strict race laws.

Ed of **BIG** fame has been busily working on a side project entitled 'Plunder and Pillage' with a singer who is over 6½ ft high. Its in the style of hardcore bands like Carnivore and Crumbsuckers but with very straight to the point lyrics.

ERIC OWENS

ERIC your 2nd C.D. "Res Gestae" has recently been released on the Swedish label 'NL' OF Linköping, what has been the response to this release & what are your thoughts on it compared to your first cd, "Folk the System" ?

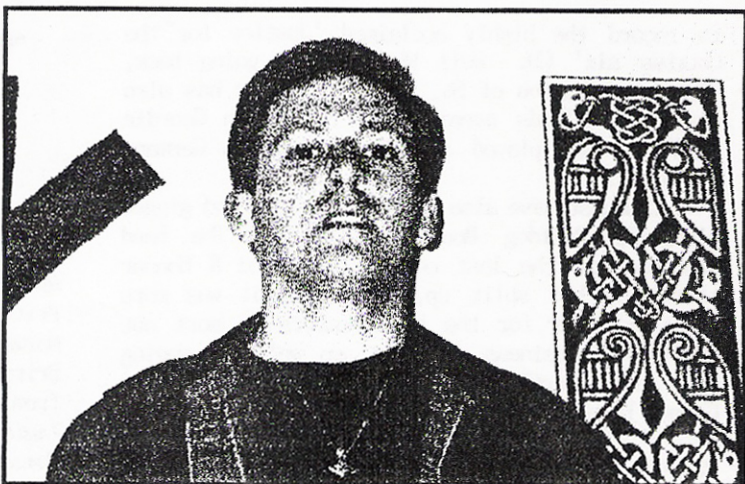

The response has been great so far. It's been played on three large radio stations here in Los Angeles. Many people in the Gothic/Industrial scene have praised it, and a very important movie director praised it as well. So, I'm quite pleased so far. I like it much better than FTS. I think that it has a much more mature sound, more mature lyrical content and many more instruments played much more professionally. I've grown a lot as a songwriter, musician and singer since my first attempt, and of course I'm still growing. The third CD which is already written is just as different from Res Gestae as Res Gestae is from FTS. I learn a lot each time I do this.

Presuming that 'Res Gestae' is latin, what does it mean, and why this choice of title ?

The titles Res Gestae literally means "Things that happened." What the Res Gestae were in Roman times were Latin war epics written in verse and often performed live to music. They tell the deeds of heroes in verse, which is what I try to do in a more modern context. So, I thought it was a fitting name that conveys the feelings and the seriousness of my CD.

Although you were once described by Resistance magazine as 'Bob Dylan for Übermenschen' a lot of people don't realize that you have a musical pedigree going way back before you embarked on the solo-folkish genre. Can you tell us a bit about your first involvement in the music scene & why you decided to go it alone & have a complete change in musical style ?

Well, of course I'd played in Young Blood for several years. Before that I'd played in some other insignificant Oi! Bands, and still earlier in a few punk bands. I'm always growing as an artist. Punk was to shallow, so I moved toward the violence and working class ethic of Oi! It ended with Young Blood because I was sick of singing simple minded lyrics about how tough we think we are and how great it is to be American. It was very simple and stupid in my opinion, and so was the music I don't regret it because it was a lot of fun at the time, but you have to keep growing. I've always loved folk music. I was raised on it, especially Irish traditional music. I couldn't find any racists in my area who could or would play this kind of music. So I had to go it alone. I play regularly with other Irish musicians, but I don't want to involve them in a political scene that they're not into because I feel that my shows will start attracting protesters. So, I want any musicians that perform with me to be able to stand up

in the face of aggression.

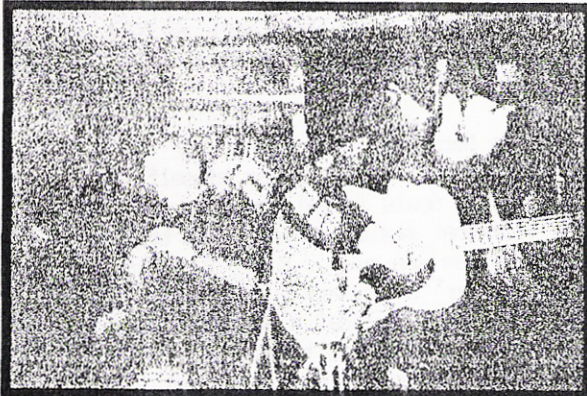

You are obviously very aware of, and proud of your Celtic roots, and your passion for Irish music & themes reflects this. However on the prickly subject of Irish Nationalism/ Republicanism I know of some narrow minded British people who dismiss you & your music out of hand claiming that you are a latent IRA sympathizer & a 'fenian'. How do you react to this or do you simply get fed up having to answer that one?

Ha ha. Anyone who would call me an IRA supporter is either a complete idiot, or an outright liar. I believe it's a combination of the two. Every interview I've ever had in which I've been asked, I've always stated in no uncertain terms that I in no way support the IRA or any other group that slaughter White people for any economic or cultural cause. So with that said, I despise with equal hatred the UDA, the UFF, the Red Hand Commandos, the UVF, etc. This is why they call me an IRA sympathizer, because they are HYPOCRITES!. At the bottom of their hearts, they hate/scorn Irish people. I hear the comments they make about Irish people in their daily conversations. They hate the IRA for fighting for multiracial socialism, while they defend the murderous gangs who defend multiracial capitalism. I scorn anyone who will kill even one white person to support a British Empire that is destroying England, Wales, Scotland, and Northern Ireland. The only place in Ireland that has any recognizable amount of subhuman non-whites is Northern Ireland and that's thanks to the British Empire who doesn't give a damn about white children or our future. I love the British and Irish people's. The only way we can stop this madness is by taking over, not by joining in the brothers war. There will never be peace until there is an Aryan state where all white folk are respected as brothers and sisters of

the same blood and family. Our future calls for a New Europe, one in which the borders between Britain and Ireland, Germany and Poland, Russia and Lithuania, Serbia and Croatia will be obsolete. Where white folk form a grand empire of world dominion.

There was quite a gap in time between the release of both your cd's (apart from the splendid work you did on BFG's "Divided by Hatred") what was the reason for the delay?

There are many reasons. The main one that I wasn't proud of FTS I felt that I had rushed it and I didn't want to make that mistake again. As a result Res Gestae transformed about three times. I kicked about four songs off the CD and replaced them each time with newer ones. Another problem was that I struggled financially to come up with recording money. Still another problem is that I have to write and arrange and practice everything myself. All the while, I am a full-time university student and I have to work for a living. I'm stretched to the limit in every aspect of my life. Therefore it's

very difficult for me to record. I feel that this actually helps me though. I feel that many bands suffer because they release CDs way too fast and stuff that they should've thrown away gets recorded making for some really bad CDs.

As a disciple of folk/celtic music myself I think 'Res Gestae' is a brilliant cd & I think 'Junta' is exceptional. How challenging was singing the French language track, "La Fluor de Lys"?

Thank you very much it means a lot to me when people appreciate what I am doing. Well I thought that "La Fluor de Lys" was going to be the easiest thing on my CD. I was really looking forward to recording it. The fact that it had no instruments other than a couple of drums made it seem like it would be a very simple affair. It ended up being the hardest and most time consuming piece on the CD. I speak French so, that was no problem for me. The problem was that when there are no instruments, there is absolutely nothing to hide any weaknesses in your voice. It was awful! I must have re-recorded that song a million times.

I've heard you've done a couple of tracks for a compilation cd, can you tell us about this?

Well so far I've only been on three compilations. One was with Young Blood and that was the Rock-O-Rama deal with Skrewdriver, Brutal Attack, ect. The two comps that Eric Owens appears on is the project Tribute CD put out by Resistance Records, and a Gothic/Industrial compilation called The Pact/Flying in the Face. I will be doing more comps in the future, both Skinhead and Gothic. I've already been asked to do a few, but I haven't yet decided which ones I want to participate on just yet.

You were imprisoned with other Aryan comrades in Sweden in January '98 by the ZOG government. What thoughts do you have on your time there?

Well, of course it wasn't much fun. I'm pretty much OK, which is good. I had a CAT-SCAN on my kidneys and they're back to normal as I drank about 10 glasses of water per day for seven months in order to re-hydrate them. They were my biggest concern. However, I still have minor stomach problems but I'm not

sure what they are. I either gave myself ulcers or I permanently thinned out my stomach lining. That's what a doctor told me. However, medical care is very expensive in this country so, I couldn't afford the X-rays to find out what it is. All in all, I think Swedes need to become more aggressive. I think that revolutionary minded Europeans should move to Sweden and start there. It is a place where the government is weak and there are few enough non-Whites that it would only take a handful of revolutionaries to turn the country upside down.

Political solutions are only wasting time. Every day Sweden is becoming more and more polluted. It is the only country that I've seen in Europe where the already existing European Skinhead movement could correct the problem by it's own physical strength. Not by attacking the government, but by mercilessly driving out the invaders.

Although you are an Aryan folk singer I'm sure you enjoy more traditional W.P. music. Which bands do you admire today on the scene?

I love the new Triskelion CD. I really like Fortress a lot. I think the new Blue Eyed Devils CD is fabulous. Of course I like BFG. I also like the new direction that Squadron is going. I like the French band Durandal also.

People like Frank Rennie, Massimo Morsello & Carl Klang have brought their own styles of 'Folk' music to the W.P. scene, do you listen to those guys & what do you think they bring to the scene?

Although the people you have mentioned don't really play a style of music that I listen to, I think it is good that they are bringing different kinds of people into our way of thinking. I support them as long as they are standing up for all White people worldwide and not imbedded in narrow-minded nationalism. As far as folk music is concerned, I usually listen to more traditional styles of folk music such as "Altan" (Ireland), the Tanahill Weavers (Scotland), June Tabor (England), Garmarna (Sweden), Vartina (Finland), Marta Sebestyen (Hungary), ect. Or English and Irish "apocalyptic folk" bands such as Fire and Ice, Strength through Joy, Death in June, Sol Invictus, ect.

Have you played any gigs or do you have plans to in the future?

I play gigs very rarely. I've played at a couple of coffee houses in Hollywood. I've also done poetry readings here in Hollywood as well. Also I opened for a large English apocalyptic folk band when they were here. Then I played a show in Oregon and one in Sacramento. That's it so far. I will play many more shows now that I have a new CD out.

Any closing comment?

Thank you for the interview. The fiery cross of your ancestors has burned long enough. The intruders have been warned. It is time now to make the world fear the kilted clan. Hail Scotland The Brave.

RECORD REVIEWS

The Best Soldiers Vol.2 - Compilation CD - Movement Recs/Postfach 18, 01720 Wilsdruff, Germany. The second 'Best Soldiers' from German label Movement, and what a compilation, 14 tracks by 7 different bands - being 'White Lightning' 'Sniper' 'Noie Werte' 'Razors Edge' 'Fraction Hexagone' 'Broadsword' and 'Mistreat'. Very well laid out complete with several band pictures and SS soldiers etc. Best band on it, well too hard to say but 'Razors Edges' 'I.S.D - Ian Stuart Donaldson', 'Broadswords' 'Blood of the brave' and 'Snipers - Hail the white race' stand out but all in a great CD from a great B&H label.....£12 from address above.....9/10.

NO ALIBI - Back for Blood & Soil - Subzero Records/ £12 from PO BOX 1234, Buffalo, NY 14213, USA.

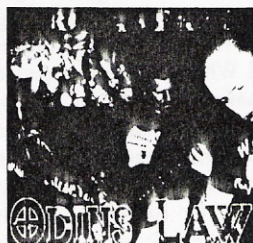

The second CD I believe (?) from these New Yorkers with a head for some heavy stuff, very hardcore in the traditional US of A style and a vast improvement on the bands previous CD, well packaged including lyric booklet sees 14 songs that include great tunes such as 'Get some pride' 'Knights of the round' 'Boot party - Buffalo style' and 'Turner' a song about Earl Turner, all good stuff, very hardcore but very enjoyable, buy it.....8/10.

WARLORD - 'Theatre of War' - Movement Records.

Well what can I say, the second Cd from the master himself and his merry men, Theatre of War has been a long time in coming after other deals failed, but here it is, not in the same vain as the first CD at all, this Cd has so many different styles on it, it is brilliant, I hear so much monotonous music these days, well I heard this and I was won over. Rocky in parts, Skrewdrivery in parts and down right thrashy in parts makes 'Theatre of War' a contender for best CD of '99 and its only March. 10 songs all in including 'Don't believe a word - America' a song detailing how Nationalists are fooled in the states into believing the I.R.A are nationalists themselves, 'Freedom - all I wanted' a Warlord track through and through, a rocky riff with very good lyrics, and 'Days of thunder' my personal favourite on the Cd which details Ian Stuarts last months of his life, great how the 'White Power' guitar tune is thrown in and very fast. All I can say is buy it now, very well laid out CD all in, either £12 from Movement Recs or £12 from Blood & Honour/BOM BOX 6826/London/WC1N3XX.....10/10.

Steelcap - 'Bullet to the head' - Tri State Terror recs, PO BOX 928, Stroudsburg, PA 18360, USA.

The debut Cd from a band I had heard previously on the comp CD 'Tri State Terror II' and this Cd doesn't let me down, I like fast Oi/Punk which is what I'd class this as, catchy songs, catchy tunes make a great CD, 13 tracks in all that include 'Aryan Soldier' 'Boots' 'Remembrance' 'Detroits Finest' and 'Drinking song', a new band to most of us also and so well worthy of support, brought out on B&H supportive Tri State Terror its well worth getting, \$14 from the above.....8/10.

Odins Law & Corona Ferrea 'Live in Switzerland' - Gold Tooth Recs.

A live CD from our comrades in Switzerland and which also celebrates the launch of a new CD label 'Gold Tooth'. A well recorded Cd and well laid out, its Italians Corona Ferrea first up with 6 tracks that include a couple in English such as 'No Remorse' and 'Legion of hate', this Italian Oi band can really strutt there stuff and it sounds as if they had a good following also. Second up are Canadas 'Odins Law' who have a great CD out called 'Battle Legions of Wotan', this Heavy thrashy band play really well and give us 6 tracks also including 'Eric Banks Lives on' 'Pride and pain' 'My honour' and Skrewdrivers classic 'House of treason' which although attempted doesn't really turn out too good. But all round a good CD, one to get hold of....7/10.

Thunder Rock Vol.2 - Compilation - Dieter koch MW Recs, Postfach 911103, D45549 Sprockhovel, Germany.

The second in the Thunder Rock series and this comp includes Brutal Attack, Celtic Warrior, Odins Law, Mistreat, The New Dawn, 08/15, Pluton Svea and Stonehammer (previously Aryan). Well laid out and well recorded by all bands, Celtic Warriors remake of 'Violent Storm' classic 'Menace to society' is great as too is 'Pluton Sveas - Smashed', well worth adding to the collection.....7/10.

Celtic Warrior - Invader - Puhses Liste recs, PO Box 1245, D-86617 Neuburg/Donau, Germany.

The latest Cd release from one of the most prominent British bands on our scene, and wow what a release, a Cd with so much power you'd think Duracell owned them. A great Cd maybe matched to what many call the bands best 'Land Race and Heritage' Cd. A good mix of fast Oi tracks with the traditional ballad thrown in, which incidentally includes the best track in my eye, called 'You were the one' a great Oi come ballad song about the sad death of former band member Stinko, other tracks include 'Invader' 'To the gallows' 'Rise to the wings' and a great song sung by Clarke of the band that is very reminiscent of Skullhead called 'Under the Burma Star' a tale of how heroic the British were out there during WW2. It all ends with a great ballad entitled 'Highlander' the tale of William Wallace who took on the English armies to fight for National Freedom, a great end to a great Cd, Celtic Warrior are firing on all cylinders.....10/10.

Stonehammer - 'Stonehammer'-Panzerfaust Recs PO BOX 188, Newport, MN 55055, USA.

A debut Cd from Stonehammer but from guys we previously know as Aryan. I'd guess the new name is to fit in with the bands Olinist beliefs which are very detailed in many songs on this Cd. A good Oi/Rock Cd from new USA label Panzerfaust, well laid out and it contains 12 tracks. They include 'Sons of our race' 'Stand Together' 'Hail Budapest' 'Traitor' and my two favourites which will become White rock n roll classics are 'Crazy' and the bands swansong 'Stonehammer' a very catchy riff. A Cd that I've played alot of lately, buy it now.....9/10.

Before God - 'Wolves amongst the sheep' - Subzero Recs, PO BOX 60, 52229 Wroclaw 20, Poland.

Well a break through for lovers of heavy death metal, 'Before God' are heavy and make Napalm Death look slow, Ed of Bound For Glory is included in this band of metal heads. Olinist songs that include 'Summoning of our ancestors' 'Rebirth of the pagan man' 'Lions, whips' 'March of the damned' and 'Minneapolis Burns', a Cd that has actually attracted the music businesses eye and has received good reviews, I'm a Oi boy but I can see where the band are coming from....7/10.

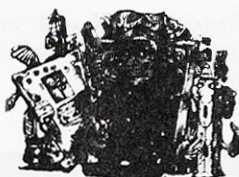

Storm / Spreegeschwader - European Guard - Svea Music/BOX 141, 69623 Askersund, Sweden.

A split Cd from top swedish label 'Svea' who've been fairly quiet lately, but bang, heres a Cd to catch you, Storm - Swedens nastiest and ugliest sons give us 5 great tracks in true Storm style, they include 'European Guards' 'Red Scum' 'Prisoner of war' and the really catchy and thundering 'Friheten Leve' which is great, Storm are the best in Europe so get them now, Spreegeschwader (don't ask me to say it ?) are German and give us some great oi tracks - German style, 4 all in that include 'Horst Wessel' and 'red mob', cathcy and singalong stuff, good Cd and I'm glad I bought it, just for the mighty Storm, so judge for yourselves.....9/10.

Involved Patriot - 'The right way' - Panzerfaust recs.

The second Cd from Involved Patriot, well second as in this Cd is solely made by Dan who played on the first Cd with the other members but its seems the band failed so Dan has recorded all of this by himself, a great feat in itself, and we are not let down, good Cd booklet and cover from new USA label Panzerfaust and 11 tracks of Hardcore come punky/oi, tracks include 'our heroes' 'self destruct' 'sheep of christ' and 'betrayal' a song about former band member Ted. Catchy tracks and a good addition to the collection.....8/10.

Guess who's coming...

Guess whose coming to dinner - Reich O Rama records.

A Cd that came to us out of the blue and is the best Cd that includes humour that I have heard for alongtime, no band names but guest vocals from People Haters, Aryan, Landser, BFG and Bully Boys make this Cd brilliant, one I've had to turn up really loud and annoy the neighbours with, very point blank songs and this Cd includes one of the modern day Skinhead anthems '88 Rock n Roll band' which is fantastic which guest all the band singers as named above. Other tracks include 'Elonics' 'Goodbye' 'G'm sh'rt'n Boogie II' 'Run' and Aryan classic 'You gotta go', available through Panzerfaust Recs for £12 inc P&P makes it one of the best Cds so far this year, maybe a follow up of 'Oh no, look who wants breakfast' will be soon ? Lets hope.....10/10.

Chaos 88 - 'Welcome to Atlantic City' - Tri State Terror recs, USA.

The first full length Cd from Chaos 88 which I believe are a side project away from Aggravated

Assault but I may be wrong but its Warren of the band singing. This Cd rocks, no mess lyrics and no mess music, fast Oi/Thrash and songs that cover everyday life, beer, women, fights, you name it it mentions it, bluntly. 13 tracks all in that include 'F**k your rules' 'Dirty whore' '88 - the summer of hate' 'K9 Killer' 'Homosexual' 'Love and a 45' 'Killing spree' and a great cover of the Anti Nowhere League classic 'So what', a CD to incite getting completely drunk, get it from TRI State.....9/10.

D.M.S - 'Boj nekonci' - Ragnarock Recs, Poste Restante, DK 3400 Hillerod, Denmark.

The debut Cd from a new Slovakian band called 'Dr Martens Skinheads - IMS', a Oi CD in its own right, well produced and recorded and 10 tracks all in, all in the native tongue but it comes with a translated lyric booklet in english, so we know the songs, tracks include 'The fight will not be over' 'Death of a Nation' 'Loyalty to the homeland' 'Fight for survival' and 'God save us', I like it but as with all foreign CDs the language barrier stops full enjoyment, but well done Ragnarock for finding a very new talented band, know doubt we'll see more of.....8/10.

C.I.S - 'Call of heroes' - Ragnarock Recs.

You remember these, Christian Identity Skins off the White Terror Vol.1 CD, I thought they'd finished long since but here they are with a full length CD and what a corker, a good mix of ballads, thrash metal and Oi, one to suit all tastes for instance, 13 songs in all and these include 'Zog will pay' 'Night of the klan' 'The truth' a great Bonanza rip off in the form of 'Westernman' 'Revenge' and 'Fate of a nation', its good to see this band still going and improving also, buy it or miss out.....8/10.

Rights for Whites - Volume One - Bootboys Recs, PO BOX 329, 3301 Høksund, Norway.

Another compilation, wow, this edition must be compilation special, but none the less a good release and with 100 copies of it given to the BNP towards its Euro Elections, a good gesture which should be made more often to help Nationalist parties, from all walks of European life.

12 tracks featuring Celtic Warrior, Storm, Norhat, Germanis, White Lightning and White Law. Well recorded and Storm stand out on this CD with the track 'The Leader' all about Mr A.H., which doesn't really help the BNP, but its a fantastic track, White Law from GB are impressive with the catchy 'Fetch the Noose' as are White Lightning with 'Freedoms Flame', a good comp and one that helps the cause, buy it from the BNP (Tyr Services) or from Norway.....9/10.

EUROPEAN UNITY

"The U.S.A tolerates an embryonic, weak Europe, we want a genuine Europe, and a strong one...we are calling the men who are ready to die for Europe...the Europe of the beautiful conceptions, the Europe of salons will emerge from the Europe of guns, from the Europe of willpower...Europe needs a hundred times more soldiers than lawyers, a hundred times more leaders than reformers....the fourth reich of the people from Brest to Bucharest....WE ARE EUROPE, THE LAST CHANCE"

The words of Jean Francois Thiriart a native of Brussels and right wing theoretician spoken in the early 1960s show far sightedness. As we Europeans continue to embrace the cultural barbarism of Coca Cola, fast food, narcotics and promiscuity of the capitalist flagship of the United States, why are our peoples so hell bent on conforming to a foreign role model which is just a much bastardized derivative of Europe, debased by alien minorities and perverse manifestations.

As our western soul becomes more corrupted by capitalism, the need for European Unity becomes greater, not unity by domination but unity by co-operation. A Europe which reflects and encourages our different cultures, traditions, values and heritage, that is what we should be working for. Plastic McDonalds desecrate roads of architectural beauty in all our capitals and towns often replacing local landmarks, traditional family values are slowly being lost as Hollywood embraces race mixing and homosexuality. Serial adulterer Clinton embracing lesbian soap stars gives a warped respectability to unproductive deviant lifestyles, further confusing a brainwashed youth. Jerry Springer can thankfully stay in the USA.

We as National Socialists are the vanguard of the European defence, while cross border co-operation continues between each countries Blood & Honour Divisions, we are European Unity in action. Each countries cell is fighting for its respective countries values, while not forgetting we are all part of a large struggle. As we all address our different problems we will all find we will need to take different paths to the solutions as we all work against different boundaries and systems. At no time has our quest been more important as we reach the 21st century.
